

Cucumber Field Day - 21 April 2025: Live Demos, Expert Talks and More

The Division of Vegetable Science in collaboration with the Zonal Technology Management and Business Planning and Development (ZTM & BPD) Unit is organizing **Cucumber Field Day** on **21st April 2025** (Monday) **from 9:00 AM to 11:00 AM** at Field Nos. MB 13/6, M13/6 and MB 13/8, ICAR-IARI Campus, New Delhi.

Attractions

- **Live Demonstrations:** Get a firsthand look at the superior performance of IARI-developed elite products and materials.
- **Expert Interactions:** Engage with leading scientists and breeders in the field of vegetable science.
- **Networking Opportunity:** Connect with fellow professionals, including researchers, growers and private sector stakeholders.
- An **opportunity to explore ongoing research** in other vegetable crops like bitter melon, bottle gourd, pumpkin etc.

Moreover, the Field Day will showcase the performance of promising cucumber lines and hybrids developed by IARI for both open field and protected cultivation conditions. This event aims to bring together researchers, entrepreneurs, farmers and other stakeholders to exchange knowledge and explore potential avenues for collaboration and commercialization.
