

Pusa Krishi: Empowering Indian Agricultural Innovation

We were established as an incubator under ICAR-IARI in 2014. Our role expanded into a meta-incubator for agriculture under the Ministry of Agriculture & Farmers' Welfare in 2018. Since then, we've been nurturing & fostering agri innovations as well as agri incubators. We work for nurturing the innovations of entrepreneurs and agri-startups through financial, technological, and legal mentoring.

This workshop will be useful for inventors, entrepreneurs, and those who have a beginning to intermediate knowledge of patents and would like to learn more about patent searching and Drafting.

Join our hands-on workshop to learn 'Patent Search & Drafting'. The three-day workshop will cover various aspects of getting started with your patents and why it is important for your business.

*The benefits of searching? * Where can you search? * When should you search? * Searching using different search engines? * Searching databases used by patent examiners? * The importance of patent drafting? * How to draft patent specifications and the contents of the patent specification. * Drafting of patent claims related to biotechnology, engineering, and IoT-based inventions.

Sessions:

22 June 2022

Overview of IPR relevance and drafting of patent applications for biotechnology inventions

Dr. Sakshi Gupta

23 June 2022

Patent Search & Drafting of Patent Applications for Engineering & IoT-based Inventions

Dr. Shweta Sharma & Mr. Ebin T Sam

24 June 2022

Hands-on training on Prior Art Search Related to Your Invention

Dr. Geetika Suyal & Dr. Sakshi Gupta
